PTBD DRAINAGE CHATHETER SET

(Percutaneous Transhepatic Biliary Drainage System)

meditech
www.meditechdevices.com

Product Description

- The PTBD Drainage Catheter Set is designed for safe and effective decompression of obstructed biliary ducts. This set allows precise percutaneous access, guidewire navigation, and placement of a pigtail drainage catheter under fluoroscopy or ultrasound guidance. The catheter ensures continuous bile drainage in malignant or benign biliary obstruction.

Full kit Contain

- Pigtail Catheter/ Stright- 40CM with Stylet & Urine Bag Connector
- Initial Puncture Needle – 18g x 20cm
- Chiba Needle 21g x 15cm
- PTFE Guide wire (0.038 x 150cm)
- Dilator – 3
