AMFC 16	2-Way	16FR	5-30ml
AMFC 18	2-Way	18FR	5-30ml
AMFC 20	2-Way	20FR	5-30ml
AMFC 3-18	3-Way	18FR	5-30ml
AMFC 3-20	3-Way	20FR	5-30ml
AMFC 3-22	3-Way	22FR	5-30ml

Features & Benefits

- It is made from medical grade and imported radio opaque silicone material.
- The silicone foley catheter has a larger inner lumen for better drainage than the same size one made from latex of PVC.
- No urate crystal and irritation occurs during intubation, this catheter associated urethral infection can be avoided.
- 100% Silicone foley catheter is widely accepted because of better biocompatibility and indwelling period can be 30 days, which can reduce trauma to urethra caused by repeated intubation.
