| MHSG-450-32 | HYDRA-STRIPE GUIDE WIRE | 3 cm Straight | 0.032 in X 450 cm |
| MHSG-450-35 | HYDRA-STRIPE GUIDE WIRE | 3 cm Straight | 0.035 in X 450 cm |

## Distinct Construction

- Kink-resistant nitinol core
- Flexible PTFE “jacket” designed for torqueability
- Hydrophilic Tungsten tip provides easy trackability.

## Enhanced Visualization

- Blue and white striped pattern is designed to provide clear endoscopic visualization of wire movement.
- Tungsten distal tip is visible under fluoroscopy to aid in confirmation of guidewire position.
